**Evidence-based
Practice**

Promotion of Evidence-based Practice is one of the core activities of the Child Health Network. In order to facilitate organizations moving forward with an evidenced-based model of care, the CHN is offering members the opportunity to discuss development, implementation and evaluation of guidelines for care within the Network

Key Objectives

- To present the concepts of evidence-based practice
- To promote consistency in practice across the CHN
- To provide a framework for the implementation and evaluation of guidelines in CHN member organizations and among CHN members
- To promote the concept of a broader approach to guidelines
- To introduce the concept of local (cluster/organizational) adaptation of CHN guidelines.
- To learn from the experiences of others/experts in the field of guidelines and evidence-based practice
